**OUR
STORY**

In the midst of ever-changing administration and maintenance needs, continuous advancement is needed to surpass all levels of human ingenuity.

At AlHajry Overseas, we simplify facility management, enhance workplace productivity, improve your living space & minimize your facility budget.

The story of excellence dates back to 1973 when AlHajry Overseas started providing services on oil ships transporting fuel overseas. The firm later stepped into establishing mid-size factories & supplying manpower. Today, Alhajry provides facilities management services to industry giants such as Saudi Aramco & SATORP.

With over four decades of serving multiple industries across the public and government sectors, including hospitality, healthcare & educational facilities through remarkable people and thought leadership, we envisage driving efficiencies & promoting seamless workplace operations. Projected to contribute majorly to the economy, we have sketched a Kingdom 2030 vision focused on the prosperity of our nation. The plan is aimed at localizing goods and manpower, using technology across all aspects of business, such as IoT and smart building concepts and solutions

Alhajry Overseas is a dedicated national company established in **1973**, representing a wide range of services to numerous industries and sectors.

Specialized in facility management, we integrate professionals, processes, and technology to add value to our client organization.

We aid you in improving how your operation functions. You also benefit from optimized investment, operating and life cycle cost. We can lower your overall costs, decrease risk and improve your efficiency.
